Maturity¹:	+0.5 days

6060RR

Proven Performer

6060 RR is a proven yield performer and has shown its ability to perform in a variety of growing conditions. Obtaining 100% of trial mean in the 2013 CPTs² and 101% of check in the 2014 BCTs³ across all zones, 6060 RR is the right choice for any field. 6060 RR produces a heavily-podded, impressive crop with excellent standability and is rated R for Blackleg.

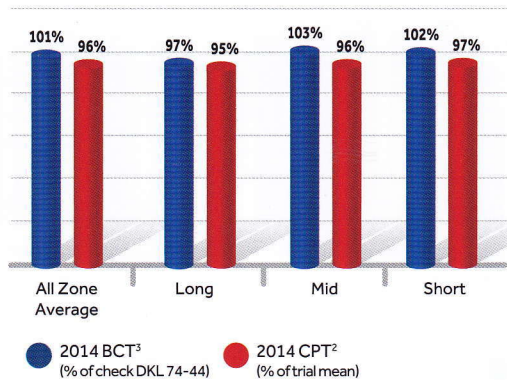

6044RR

Mid-maturity Hybrid with Excellent Yield and Standability

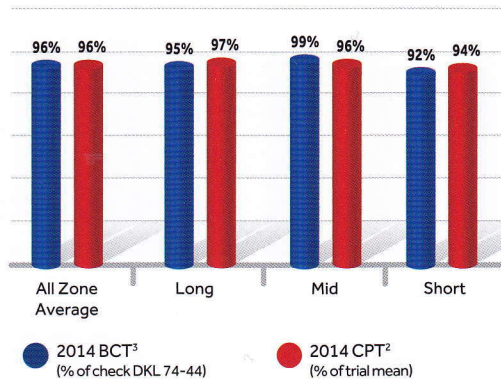

6044 RR is a medium height, mid-maturing hybrid with our hallmark excellent harvestability. Its mid-maturity rating will fit in all canola production areas of Western Canada. Overall, 6044 RR has the right combination of yield, maturity, standability, and blackleg resistance that you will want on your farm.

Performance in Trials

Performance in Trials

¹ Maturity based on variety registration Co-op trials.

² CPT = Canola Performance Trials, managed by the Canola Council of Canada, visit www.canolaperformancetrials.ca for complete details.

³ BCT = Brett Young Comparison Trials, visit www.brettyoung.ca for complete details.
